32 FORD FIREWALLS & TECHNICAL INFORMATION

321040 32 FORD FIREWALL KIT
Small Block

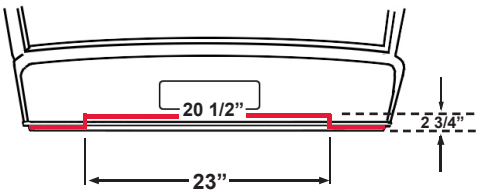
The small block firewall has a 2 3/4" set-back from the front edge of your stock cowl. It enables you to install most small block modern engines.

321042 32 FORD FIREWALL KIT
Big Block

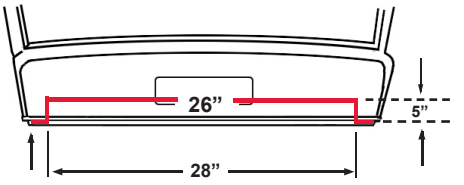
For those of you that need a little more room for those big motors, this firewall has a 5" set-back.

321050 32 FORD FIREWALL KIT
Hemi

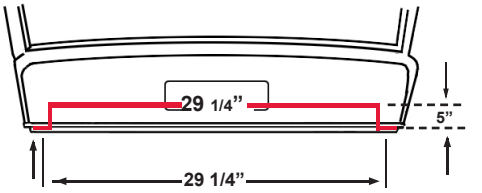
Developed in 2006 - After numerous requests for something for Hemis. We went to a 29 ¼' wide, 5" deep firewall that's about as big as you can bolt back into a '32.



1932 Ford Truck Firewall
2 3/4" Set-back
NO 321040 (Small Block)



1932 Ford Truck Firewall
5" Set-back
No 321042 (Big Block)



1932 Ford Truck Firewall
5" Set-back
No 321050 (Hemi)

THE SET-BACK INFORMATION PROVIDED ON THIS PAGE IS FOR YOUR INFORMATION ONLY

Many factors will affect your choice of kits; engine set-back, radiator core thickness, air conditioning or superchargers. First determine the length of the engine package you intend to install & then figure out the distance you have from the back of the radiator core to the stock or existing firewall. By doing this, you will know how much extra room or set-back you will need. The firewall only fits in one place in the body, but your engine can be moved forward or backward as much as needed to obtain proper clearances. If you have any questions, please call our customer service line at (928) 420-1254.

NOTE: These firewalls are designed for the most popular engine-transmission conversion which is Chevy engine & GMC turbo transmission. Any other engine installation (Ford, Mopar, etc.) may require rework of the bell housing area of the firewall.
